1. Receipt is acknowledged of the amendments filed September 08, 2003 and September 22, 2003.

2. Claims 1-30 are pending in this application.

3. Claim 1-4, 7-13 and 15 are drawn to the elected invention.

Claims 5-6, 14 and 16-30 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 9.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 7, 11-13 and 15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Farbood et al U.S. 4,560,656.

The reference teaches the oxidation of castor oil, which is one of the species within the scope of the claimed inventions. The process conditions are considered to be

Art Unit: 1651

prima facie obvious in view of the disclosure in column 3 in which a microorganism, *Candida tropicalis*, oxidizes a species within the scope of the claimed inventions.

5. Claims 4 and 8-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The references do not anticipate or/and the references do not suggest or motivate one to employ the processes for the specific oxidations including wherein *Candida tropicalis* substantially beta-oxidation pathway is blocked since the reference to Fabood et al teaches in column 1, line 29.

6. **No claim is allowed.**

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
